What is an Aggressive Hybrid Equity Fund?

Aggressive hybrid funds have an option to invest in equity and equity related instruments between 65%-80% of total assets with investments in debt instruments ranging between 20%-35% of total assets.

Why invest in an Aggressive Hybrid Equity Fund NOW?

- This category of funds lets an investor participate in the equity upside along with an allocation to debt instruments, providing stability.
- Although, the fund invests in equity as well as debt instruments, the allocation ensures the benefit of equity taxation is provided to the investor.
- Markets look positive from the medium term with the near term seeming to be more event driven.

Why PGIM India Hybrid Equity Fund?

- The PGIM India Hybrid Equity Fund is the only fund in the said category investing in international equities through the PGIM Jennison Global Equity Opportunities Fund. (Source - value research)
- What do we achieve?
 - Diversification to 3 asset classes which have a low correlation
 - Lower portfolio volatility
 - Potentially superior performance over market cycles

Index	Volatility (Annualized)
NIFTY 50 TR Index	14.96%
CRISIL Hybrid 35+65 - Aggressive Index	9.52%
88% CRISIL Hybrid 35+65 Aggressive Index & 12% PGIM Jennison GEOF	9.20%

(Annualised Returns as on March 31, 2023; Source: AMFI & Bloomberg. The above measures are based on Standard deviation and are for the last 6 years. For the international allocation, the INR NAVs of the PGIM Jennison Global Equity Opportunities Fund have been considered.)

The fund provides a diversification to 3 asset classes with a minimum of 65% of total assets being invested in domestic equity and equity related instruments, up to 15% of total assets being invested in global equities, balance 20% - 35% in Debt Securities and Money Market Instruments.

- The global equity allocation is invested in disruptors of tomorrow led by Technology and Consumer Discretionary.

On-demand Consumption

Increased mobile Internet usage and shift to on-demand customized consumption models is leading to new delivery formats and business models

Enterprise Technologies

Exponential growth in digital data is driving massive growth in cloud technologies and network optimization through more intelligent and connected software and infrastructure

Global Consumer

Large younger demographic populations with growing disposable incomes, particularly in emerging markets, is creating significant demand for premium products

Digital Payments

The irreversible long-term shift from cash to electronic credit and debit transactions is resulting in expansive growth of integrated payment platforms

Robotics & Autonomy

A new generation of advanced robotic devices that combines deep intelligence with virtual/augmented reality tools is finding broad applications

Health Tech & Therapies

A new innovation cycle with an integrated ecosystem that combines consumer relevance, artificial intelligence, and digital supply chains for quicker, more accurate diagnoses and treatments

- The domestic equity allocation comprises of steady compounders and market share gainers, that is, companies likely to become compounders in future.
 - Market share gainers are companies growing faster than the segment in which they operate.
 - Steady Compounders are high growth and high quality companies with consistently high ROE.
