**1** PGIM India – Equity Investment Process

**2** Why Small Cap?

**3** Why PGIM India Small Cap Fund?

# **PGIM India – Equity Investment Process**

# PGIM India – Equity Investment Process

---

Our investment process is based on the following pillars:

## Stock selection: Criteria to build fund house universe

- The starting point for our fund house universe will be all companies with market cap greater than Rs.1,000 crores (including any IPOs)
- As of Dec-2022, there are 1037 companies with market capitalization greater than Rs 1000 crores\*
- We then look at the following 3 parameters to further filter the universe:

### Quality

- Higher than peer average RoE
- Sustainable RoE

### Growth

- Higher than peer group growth in earnings
- Sustainable earnings growth

### Management

- Good quality management
- Good capital allocation track record
- Operating cash flow positive in 7 out of 10 years (ex financials) (In companies with less than 10 years of data available, at least 70% of the years should have generated positive operating cash flows)

\*Source: AMFI

# Portfolio Construction: Designing an optimal portfolio

## Portfolio construction principles

-  **Diversification**
-  **High Active Share**
-  **Lower portfolio turnover**
-  **True to mandate**

# Why Small Caps?

# Smallcaps: Can take meaningful exposure to sectors where largecaps have less presence

- Within the smallcap segment there are many sectors where larger companies don't have a significant presence
- This provides a style diversification opportunity to investors
- Examples of such industries could be metals & mining, construction & construction materials
- Smallcaps may provide some unique opportunities such as companies with:
  - Potential to gain market share from established players
  - Ability to scale rapidly
  - Niche business / emerging business

Source: Niftyindices. Data as of 31 May 2024. Stocks mentioned are for illustration purpose only and not meant as a recommendation to buy or sell the security. The Scheme may or may not invest in these stocks. Investors are requested to consult their financial, tax and other advisors before taking any investment decision(s).

# Smallcaps: Under-researched and Under-owned

(The ownership data also includes any ADR/GDR)

- Proprietary research becomes important as one goes down the capitalization curve, as number of analyst tracking smallcap is relatively less
- PGIM India has a proven track record in identifying bottom-up stock ideas, with an experienced research team
- Foreign institutional ownership reduces beyond top 100 stocks
- As companies grow their revenue and profitability in the long run, the interest from institutional investor tends to rise, leading to potential re-ratin

Source: Bloomberg, Data as on 5-May-2021.

# Historically smallcaps have been more volatile. Thus, investor's risk appetite should be aligned

- During periods of contraction, smallcaps in general witness a greater drawdown compared to largecaps
- However, smallcaps are also quick to recover as and when the economy revives
- Smallcaps are more volatile compared to their largecap counterparts
- Investors should have an appropriate risk appetite before investing in this segment

Source: AceME Data as on 31-March-2023

**Why PGIM India Small Cap Fund?**

## PGIM India Small Cap Fund - Characteristics

<b>ASSET ALLOCATION</b>	<b>INVESTMENT APPROACH</b>
Minimum 65% allocation to smallcap stocks  Smallcaps defined as stocks beyond top 250 as ranked by marketcap*	Quality and Growth focused  Focus on ROE, Growth, FCF and leverage ratios
